EXECUTIVE SUMMARY

High-impact Business Operations and Client Success Executive with a recognized record of driving B2B client acquisition, high-touch enterprise onboarding, and strategic commercial growth across high-performance SaaS, ERP, and custom technology solutions. Serves as Executive Director Marketing & Business Operations at DebugVision and Head of Business Operations at Lorapok Labs. Instrumental in connecting complex technical engineering roadmaps with business ROI, spearheading stakeholder consensus, negotiating multi-stakeholder SLAs, and leading 50+ clients from initial discovery to successful operational onboarding.

EXECUTIVE CAREER HISTORY

Executive Director of Business Operations & Client Partnerships 2024 — Present

Lorapok Labs Collective · Dhaka, Bangladesh

- Lead all client discovery, commercial engagement, and onboarding funnels across enterprise open-source and bespoke software development contracts.
- Primary executive client partner for flagship deployments including HomeDyn Restaurant Operating System and SmartOffice.ai ERP.
- Instituted client onboarding playbooks that lowered implementation ramp-up time by 40% while preserving a 98% on-time milestone delivery benchmark.
- Quarterback multi-party commercial contracts, service-level agreements (SLAs), and post-launch maintenance governance.

Executive Director Marketing & Business Operations 2023 — Present

DebugVision (Advanced Software Solutions & Innovative SaaS) · Shyamoli, Dhaka

- Oversee comprehensive business operations, corporate positioning, and commercial client relationships for high-concurrency SaaS and custom web applications.
- Directly acquired and onboarded 50+ business accounts spanning healthcare operations, multi-tenant property management, and financial workflows.

- Partner with CEO and systems architects to translate complex client business requirements into actionable engineering statements of work (SOWs).
- Maintained over 95% client retention and renewal rate through proactive account health monitoring and quarterly business reviews (QBRs).

CORE COMPETENCIES & EXPERTISE

Client Engagement: Enterprise Client Onboarding, High-Touch B2B Account Management, C-Level Stakeholder Alignment, Needs Discovery
Revenue & Ops: Business Operations (BizOps), Revenue Operations (RevOps), Proposal & SOW Architecture, Pricing Strategy
Contracts & Governance: Commercial SLA Structuring, Contract Negotiation, Delivery Milestones, Risk Mitigation
Growth & GTM: B2B SaaS Solution Selling, Go-To-Market Execution, Client Retention & Renewals, Strategic Partnerships

KEY ACHIEVEMENTS & CLIENT SUCCESS MILESTONES

- **50+ Enterprise & SME Deployments:** Successfully originated, scoped, and onboarded over fifty commercial clients into active production software systems.
- **Executive Leadership at DebugVision:** Head of marketing and business operations orchestrating corporate growth at Shyamoli Cinema Complex headquarters.
- **Flagship Client Rollouts:** Directed commercial onboarding for national-scale software platforms including HomeDyn Restaurant System and SmartOffice.ai.
- **High-Velocity Retention Architecture:** Established client-first feedback loops achieving consistent 95%+ client renewal rates across multi-quarter development contracts.
