Ishtiak Shovon

PRINCIPAL TECHNICAL ADVISOR & SYSTEMS ARCHITECT

Location: Dhaka, Bangladesh | **Role:** Technical Advisor, Lorapok Labs | **LinkedIn:** linkedin.com/in/ishtiak-shovon | **Web:** lorapok.tech

EXECUTIVE SUMMARY

Distinguished Software Engineering Leader and Principal Technical Advisor with deep expertise in enterprise systems architecture, distributed computing, microservices, and database optimization. Holds a Bachelor of Science (B.Sc.) in Computer Science from East West University (EWU). Brings a strong engineering pedigree across Infinity Infotech Ltd and Sheba Technologies Limited, driving technological strategy, architectural governance, high-concurrency backend patterns, and engineering excellence across the Lorapok Labs collective.

PROFESSIONAL EXPERIENCE & ADVISORY

Principal Technical Advisor & Systems Architect 2024 — Present

Lorapok Labs Collective · Dhaka, Bangladesh

- Provide strategic technology advisory to collective leadership, guiding system scalability, resilience, and software architectural governance.
- Advise core engineering squads on multi-agent execution frameworks, distributed cache synchronization, and real-time event streaming architectures.
- Benchmark and review database schemas, API contract designs, and microservice decoupling across flagship developer tooling and client platforms.
- Champion engineering best practices, CI/CD automation pipelines, automated regression suites, and secure development lifecycles.

Software Engineer 2021 — 2024

Infinity Infotech Ltd · Dhaka, Bangladesh

- Architected and delivered scalable enterprise software systems and responsive web applications for institutional and commercial clients.
- Engineered high-performance backend microservices and RESTful API endpoints, optimizing database queries to reduce response latencies by over 30%.
- Led database schema design, indexing strategies, and relational data migrations ensuring strict transactional integrity.
- Spearheaded code reviews, architectural discussions, and automated deployment pipelines, maintaining 99.9% service reliability.

Junior Software Engineer 2019 — 2021

Sheba Technologies Limited (Sheba Group) · Dhaka, Bangladesh

- Built core business logic, web components, and backend API modules within the Sheba Group enterprise technology division.
- Collaborated with senior engineering architects on database modeling, software debugging, and performance profiling.
- Delivered high-reliability features and integration tests within fast-paced agile development sprint cycles.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science 2015 — 2018

East West University (EWU) · Dhaka, Bangladesh

Rigorous foundation in Algorithms, Data Structures, Operating Systems, Software Architecture, Database Management Systems (DBMS), and Distributed Computing.

CORE COMPETENCIES & TECHNICAL CAPABILITIES

Architecture & Strategy: System Architecture, Enterprise Software Engineering, Distributed Systems, Microservices, Technical Advisory
APIs & Backends: RESTful APIs, High-Concurrency Services, GraphQL, Cloud Deployments, Authentication & RBAC
Data & Persistence: Relational Database Modeling (MySQL, PostgreSQL), Query Optimization, Caching Layers, Data Migrations
Engineering Excellence: Code Governance, Automated CI/CD, Containerization (Docker), Software Craftsmanship, Agile Leadership

KEY CONTRIBUTIONS & HONORS

- Principal Technical Advisor to Lorapok Labs, driving software resilience, developer experience, and long-term architectural roadmap execution.
- Over 5+ years of verified software engineering excellence delivering mission-critical applications at Infinity Infotech Ltd and Sheba Technologies.
- Pioneered architectural reviews that optimized API throughput and established automated continuous delivery standards.
