

TOUFIQ AHMED

JUNIOR SOFTWARE ENGINEER | FULL-STACK DEVELOPER

toufiqahmed650@gmail.com • github.com/ToufiqLarvox • linkedin.com/in/toufiq-ahmed

TECHNICAL SKILLS

Languages: C • C++ • C# • Java • Python • JavaScript

Backend: .NET • Node.js

Database: SQL

Core: Data Structures & Algorithms • OOP • Database Management

Tools & Graphics: Git • GitHub • OpenGL

CORE STRENGTHS

- Problem Solving
- Algorithmic Thinking
- Software Debugging
- Full-Stack Development
- Team Collaboration
- Continuous Learning

EDUCATION

B.Sc. in Computer Science & Engineering

American International University-Bangladesh (AIUB)

LANGUAGES

Bengali: Native

English: Professional Working Proficiency

PROFESSIONAL SUMMARY

Junior Software Engineer and Full-Stack Developer with a strong foundation in software development, object-oriented programming, data structures, databases, and web application development. Experienced with C, C++, C#, Java, Python, and JavaScript, with practical experience in .NET, Node.js, and SQL. Passionate about building reliable software solutions, solving programming problems, and continuously expanding technical expertise.

PROFESSIONAL EXPERIENCE

Junior Software Engineer — Lorapok Lab

September 2026 – Present

- Contribute to development and maintenance of full-stack software and web applications.
- Develop application features across frontend and backend components.
- Use .NET, Node.js, JavaScript, and SQL for application development.
- Write clean, maintainable, reusable code.
- Debug application issues and implement effective technical solutions.
- Collaborate with team members throughout development and testing.

SELECTED PROJECTS

School Management System | C#

- Developed a school management system using C# and object-oriented programming.
- Implemented structured functionality for school-related information and operations.
- Applied OOP concepts to organize application components.

• **GitHub:** github.com/ToufiqLarvox/School-Management-System

Data Structures & Algorithms in C++ | C++

- Implemented fundamental data structures and algorithms.
 - Practiced arrays, linked lists, stacks, queues, trees, sorting, and searching.
- **GitHub:** github.com/ToufiqLarvox/DSA-in-CPP

OpenGL Graphics Projects | C++ / OpenGL

- Worked on C++/OpenGL graphics projects with 2D rendering, coordinate systems, geometric primitives, and scene construction.
- **GitHub:** github.com/ToufiqLarvox
