Technical Skills

- **Testing Tools & Frameworks: Cypress** , **Playwright** , **REST Assured**, Postman ,**JMeter**, JIRA, Git, IntelliJ IDEA, VS Code
- **Testing Skills:** Test Planning, Test Case Design, Test Case Execution, Integration Testing, Functional Testing, Performance testing, Regression Testing, Sanity Testing
- **Programming Languages:** Java, JavaScript, C++
- **Databases:** MongoDB, MySQL, PostgreSQL
- **Other Expertise:** Natural Language Processing (NLP)

Work Experience

SeedLink Innovation **October 2025 - Present**

SQA Engineer – Projects: ***SendCopy.ai :Automation*** | ***PinkBounce*** | ***E-Warmup***

- Performed comprehensive **end-to-end manual testing** to validate 99% of core user workflows across a full-scale web application.
- **Created and executed 400+ manual test cases**, including functional, regression, and smoke testing.
- Developed **100+ Playwright automation scripts** using **Page Object Model**, which enabled **early detection of defects** and increasing **test coverage by 40%** across critical user flows.
- Logged, tracked, and **verified 150+ defects** in an open project, **collaborating closely with developers** to ensure stable and high-quality releases.

Progoti Systems Limited(TallyKhata). **July 2024 - September 2025**

Junior Software QA Engineer

- Executed **600+ backend test cases** for TallyPay, validating **financial transaction workflows**, **business logic**, **APIs**, and **third-party payment integrations** using **Postman** and **SQL**.
- **Conducted regression and sanity testing across 10+** post-deployment cycles, ensuring stable releases with no major production defects.
- Implemented **Cypress**-based frontend automation, and **Rest Assured** for backend API automation, resulting in **60%** effort reduction in user registration and **25%** improvement in regression cycles.
- **Tracked and managed over 100+ defects in JIRA** as part of a structured **Defect Management** process, ensuring proper **documentation**, **prioritization**, and **timely resolution**.
- **Owned 30%** of the QA team's workload in **Agile sprints**, supporting on-time delivery of **10+** successful releases.

Projects

- **Shohoz.com Playwright Automation:** playwright, JavaScript | **Github link of Shohoz.com Playwright automation**
  - **Built automation scripts** for end-to-end user workflows, including **secure login**, **transport search**, and **ticket booking** processes to validate core business logic.
  - **Architected a scalable Page Object Model** (POM) framework using Playwright to ensure high reusability and maintainability.
  - Developed **50+ test scripts**, covering **happy path** and **negative scenarios** to ensure application stability across edge cases and invalid user inputs.
  - **Reduced regression testing time** by implementing Playwright scripts to ensure cross-browser compatibility and UI consistency.

- **Automation Project:** Cypress, JavaScript | **GitHub link for Cypress automation**
  - Designed and implemented robust **end-to-end** Cypress tests with clean, **reusable scripts** to ensure a seamless and **reliable user experience** across a online **shopping platform**.
  - Automated **critical user journeys** including **login**, **product search**, **add-to-cart**, and **secure checkout process**.
  - Automated the Contact Us form including **file upload** and successful **submission flow** using Cypress.
  - **Significantly improved** overall test coverage, **execution efficiency**, and **consistency** across multiple core features.

Problem Solved

- Solved almost **250+** problems across various online judge and various programming contests.
- **Codeforces:** **Tanjilbhuyan** | **LeetCode:** **Tanjil03** | **HackerRank:** **Tanjil03** | **URI:** **TanjilBhoiyan**
